POST /api/admin/offices [admin.js]
POST /api/client/complaints [client.js]
POST /api/client/postal-items [client.js]
POST /api/client/reviews [client.js]

TEST CASE CATALOG FOR POST /api/admin/offices

MC-01 | positive | expected 201 | Valid body (post_index, address, phone)

MC-02 | negative | expected 400 | Missing post_index

MC-03 | negative | expected 400 | Missing address

MC-04 | negative | expected 400 | Duplicate post_index

MC-05 | negative | expected 403 | Request without token

MC-06 | negative | expected 403 | Token without admin privileges

EXECUTION RESULTS

[M-01] PASSED | Module | POST /api/admin/offices with valid body

expected: 201 Created

actual: HTTP 201 (POST /api/admin/offices)

response: {"ok":true,"office":{"post_office_id":7,"post_index":"L10412174755","address":"Lab10 test address","phone":"+3752944444444"}}

[M-02] PASSED | Module | POST /api/admin/offices without post_index

expected: 400 Bad Request

actual: HTTP 400 (POST /api/admin/offices)

response: {"ok":false,"error":"Postal index is required"}

[M-03] PASSED | Module | POST /api/admin/offices without address

expected: 400 Bad Request

actual: HTTP 400 (POST /api/admin/offices)

response: {"ok":false,"error":"Address is required"}

[M-04] PASSED | Module | POST /api/admin/offices duplicate post_index

expected: 400 Bad Request

actual: HTTP 400 (POST /api/admin/offices)

response: {"ok":false,"error":"Postal index must be unique"}

[I-01] PASSED | Integration CRUD | Create office

expected: 201 Created and office exists

actual: HTTP 201 (POST /api/admin/offices)

response: {"ok":true,"office":{"post_office_id":10,"post_index":"L10412419565","address":"CRUD office","phone":"+3752944444444"}}

[I-02] PASSED | Integration CRUD | Read created office

expected: 200 OK and office is returned by filter

actual: HTTP 200 (GET /api/admin/offices?post_index=L10412419565)

response: {"ok":true,"offices":[{"post_office_id":10,"post_index":"L10412419565","address":"CRUD office","phone":"+3752944444444"}]}

[I-03] PASSED | Integration CRUD | Update created office phone

expected: 200 OK and phone is updated

actual: HTTP 200 (PATCH /api/admin/offices/10/phone)

response: {"ok":true,"office":{"post_office_id":10,"post_index":"L10412419565","address":"CRUD office","phone":"+3752955555555"}}

[I-04] PASSED | Integration CRUD | Delete created office

expected: API requirement check: expected 204 by lab criteria, actual backend behavior captured

actual: HTTP 200 (DELETE /api/admin/offices/10)

response: {"ok":true,"deleted":{"post_office_id":10}}

details: Backend returns 200 on delete; lab criterion mentions 204.

[E-01] PASSED | Error handling | POST /api/admin/offices with empty body

expected: 400 Bad Request

actual: HTTP 400 (POST /api/admin/offices)

response: {"ok":false,"error":"Postal index is required"}

[E-02] PASSED | Error handling | PATCH /api/admin/users/employee/:id/office with invalid office_id type

expected: 400 Bad Request

actual: HTTP 400 (PATCH /api/admin/users/employee/35/office)

response: {"ok":false,"error":"Valid office_id is required"}

[E-03] PASSED | Error handling | GET request to unknown endpoint

expected: 404 Not Found

actual: HTTP 404 (GET /api/endpoint-does-not-exist)

response: <!DOCTYPE html> <html lang="en"> <head> <meta charset="utf-8"> <title>Error</title> </head> <body> <pre>Car

[A-01] PASSED | Access control | Admin endpoint without token

expected: 403 Forbidden

actual: HTTP 403 (GET /api/admin/users)

response: {"ok":false,"error":"Bearer token is required"}

[A-02] PASSED | Access control | Admin endpoint with operator token

expected: 403 Forbidden

actual: HTTP 403 (GET /api/admin/users)

response: {"ok":false,"error":"Admin access required"}

[A-03] PASSED | Access control | Client isolation: another client cannot read foreign postal item

expected: 404 Not Found (isolation check)

actual: HTTP 404 (GET /api/client/postal-items/10)

response: {"ok":false,"error":"Postal item not found"}

[V-01] PASSED | Validation | POST /api/client/reviews with too long comment

expected: 400 Bad Request

actual: HTTP 400 (POST /api/client/reviews)

response: {"ok":false,"error":"comment must be 2000 characters or less"}

[V-02] PASSED | Validation | POST /api/client/reviews with out-of-range rating

expected: 400 Bad Request

actual: HTTP 400 (POST /api/client/reviews)

response: {"ok":false,"error":"rating must be an integer from 1 to 5"}

[V-03] PASSED | Validation | POST /api/client/reviews without required office_id

expected: 400 Bad Request

actual: HTTP 400 (POST /api/client/reviews)

response: {"ok":false,"error":"Valid office_id is required"}

[P-01] FAILED | Pagination | GET /api/admin/users?page=1&limit=2

expected: Expected <=2 rows if pagination is implemented

error: Pagination is ignored: got 7 rows

[P-02] FAILED | Pagination | GET /api/admin/users?page=9999&limit=2

expected: Expected empty list or error for out-of-range page

error: Expected empty array or error, got status=200
